

Something in the Air!

Experiment - Student Worksheet

Date:	Student Name:	Building:
-------	---------------	-----------

Time of Day	Room/Area	CO2 (PPM)	VOC (PPB)	Temperature (C)	Humidity (%RH)	Notes

- * CO2 - should not exceed 1000 PPM
- * Humidity - above 60% can encourage microbial action and mold growth
- * VOC's - above 1000 PPB should be investigated
- * Temperature - Recommended : Summer 23-26 C; Winter 20-24 C

One little cube. Science on the move.
