actual size  
42.5mm

databot

databot is a power-packed wireless, multi-sensor scientific tool that brings the world of data to life instantly and makes exploring science, math, coding, machine learning, and AI easy and exciting. All purchases include lessons, the free Vizeey app, and support resources for a variety of free coding environments including MicroBlocks, Python, the Arduino IDE, and others.

## KIT CONTENTS

Each kit includes

- databot
- USB Cable
- Temperature Probe
- Lanyard
- Case or Pouch

**Grades:** 4 & Up

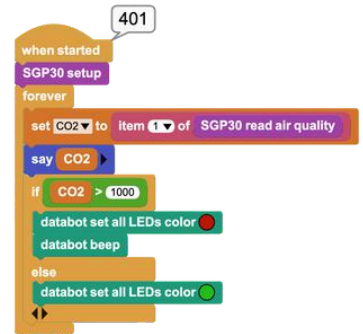

**Students:** 2 Students per databot (recommended)

**Curriculum:** Science Modules, Coding, Robotics, Design Challenges, Data Games, and more

**Environments:** Classrooms, After-School, Summer Programs, Makerspaces, @Home

Vizeey App

MicroBlocks®

## LESSONS AND RESOURCES INCLUDED

### Science: Sensor Starters

15 activities that introduce databot sensors, the technology behind them, what they measure, the units used, and how they are applied in the real world. Each lesson includes engaging, hands-on activities that cover important NGSS science topics using live sensor data.

### Open AI Lesson Generator

Use the databot GPT lesson generator to create an infinite number of activities designed to address any learning objective.

### Technology: Coding Starters

32 activities that walk students through the basics of computer science using easy-to-follow instructions, databot, and MicroBlocks! Once students complete the introductory series, capstone projects in IOT, robotics and more take them further.

### Open Content Library

Growing library of blogs, how-tos, videos, 3D print files, science lessons, code, and more for activities with drones, robots, data science, environment, rockets, representing hundreds of hours of explorations.

## SENSORS

	CO2
	Magnetometer
	Gesture Sensing
	Linear Acceleration
	Temperature Probe
	Ultraviolet
	Accelerometer
	Gyroscope
	Altitude
	Proximity, 3 cm, 10 cm*
	Air Pressure
	Volatile Organic Compounds

	Humidity
	Color
	Light
	Sound

## PHYSICAL COMPUTING

- 3x RGB LEDs
- Tone Generator
- I2C
- UART
- USB to Serial

## COMMUNICATIONS

- WiFi
- Bluetooth

## PREMIUM TITLES & TRAINING

### Missions with LEGO® Robotics

Eight career-based missions, 137 pages, detailed instructions, building plans, power up your LEGO robotics program!

### Discovery of Data Summer Camp

200+ pages detailing 12 unique summer camp experiences that bring data to life for students in wild and crazy ways.

### databot Online

A PLC that includes video based training, community sharing, and all databot curriculum resources in one, easy-to-access place!

## PRICING

SKU	Product	Price	Shipping
<b>Kits and Bundles</b>			
201	databot Single	\$189.99	\$10.50
202	databot Twin Pack (2 kits)	\$375.00	\$13.50
203	databot Classpack (10 kits)	\$1,850.00	\$21.00
215	Discovery of Data Summer Camp Bundle (Camp Curriculum + Classpack)	\$1,899.00	\$21.00
214	databot Missions with LEGO Classpack Bundle (10 kits + Missions Curriculum)	\$1,879.00	\$21.00
213	Ultimate STEM Bundle (20 kits + Camp + Missions + Training Bundle)	\$3,999.00	\$40.00
PD24	Professional Learning Bundle: 2 Twin Packs, 1 Year PLC account which includes all titles.	\$999.00	\$18.00
PDCP	Classpack, 1 Year PLC account which includes all curriculum titles.	\$1,999.00	\$21.00
<b>Premium Content</b>			
209	Missions with LEGO Robotics Curriculum (Digital Download + Site License)	\$49.00	N/A
210	Discovery of Data Summer Camp Curriculum (Digital Download + Site License)	\$129.00	N/A
<b>Training</b>			
PLC	databot Online: 1-Year Access Professional Learning Community, Curriculum, Training.	\$149.00	N/A
<b>Accessories</b>			
200	Spare Temperature Probe	\$9.99	\$4.50

## HOW TO ORDER
